Ventricular states resolved independently within each stage

Color and IDs identify within-stage computational groups; proposed labels and support are shown beside each panel.

P0_V0 · n=424
Cycling/DNA-replication program
[supported transcriptional state]

P0_V1 · n=2,114
Lipid/substrate-handling program
[candidate/review]

P0_V2 · n=3,425
Adhesion/structural program
[candidate/review]

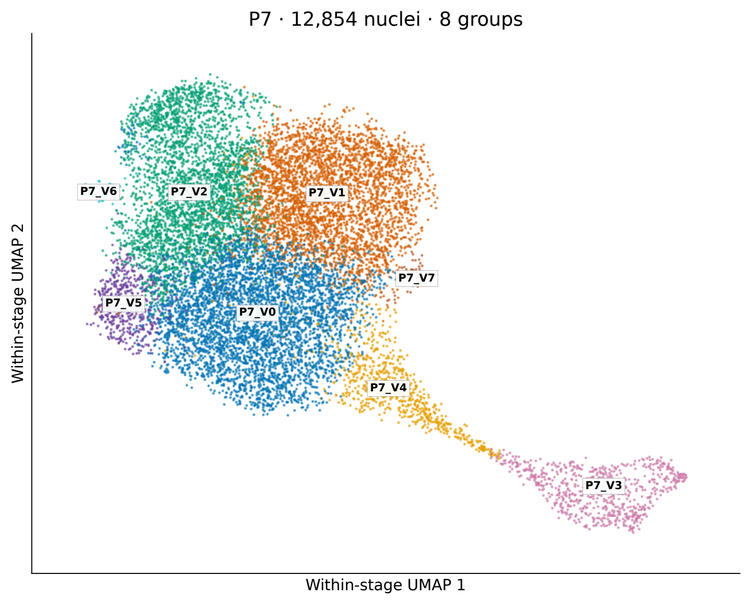

P0_V3 · n=879
Myh7/Nppa-enriched program
[replicate-supported; adjustment-sensitive]

P0_V4 · n=2,062
Lipid/substrate-handling program
[supported transcriptional state]

P0_V5 · n=822
Myh7/Nppa-enriched program
[candidate/review]

P0_V6 · n=531
Adhesion/structural program
[candidate/review]

P0_V7 · n=58
Marker-defined: Mid1/Gria1
[candidate/review]

P7_V0 · n=4,232
Calcium/contractile program
[candidate/review]

P7_V1 · n=3,420
Srl/Actn2-enriched structural program
[supported transcriptional state]

P7_V2 · n=3,113
Uncharacterized ventricular state
[candidate/review]

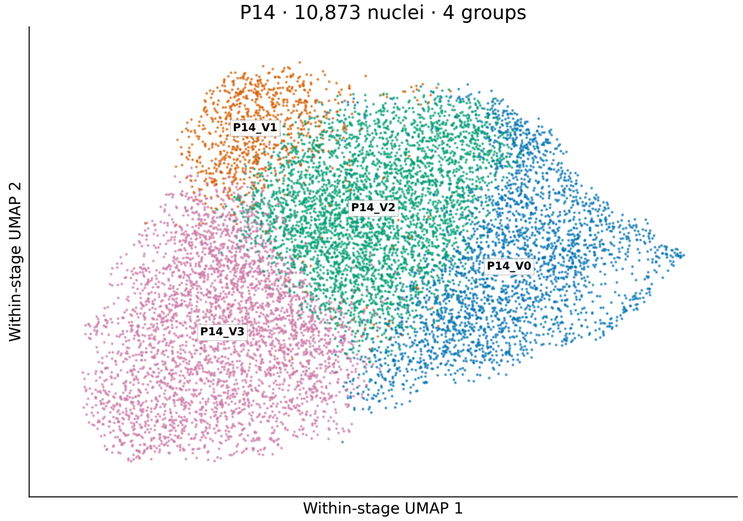

P7_V3 · n=692
Cycling/DNA-replication program
[supported transcriptional state]

P7_V4 · n=761
Marker-defined: Rad51b/Pola1
[candidate/review]

P7_V5 · n=516
Marker-defined: Fgf14/Pdzrn4
[candidate/review]

P7_V6 · n=56
Marker-defined: Magi3/Bcl2l11
[candidate/review]

P7_V7 · n=64
Marker-defined: Cacna1d/Arhgap6
[candidate/review]

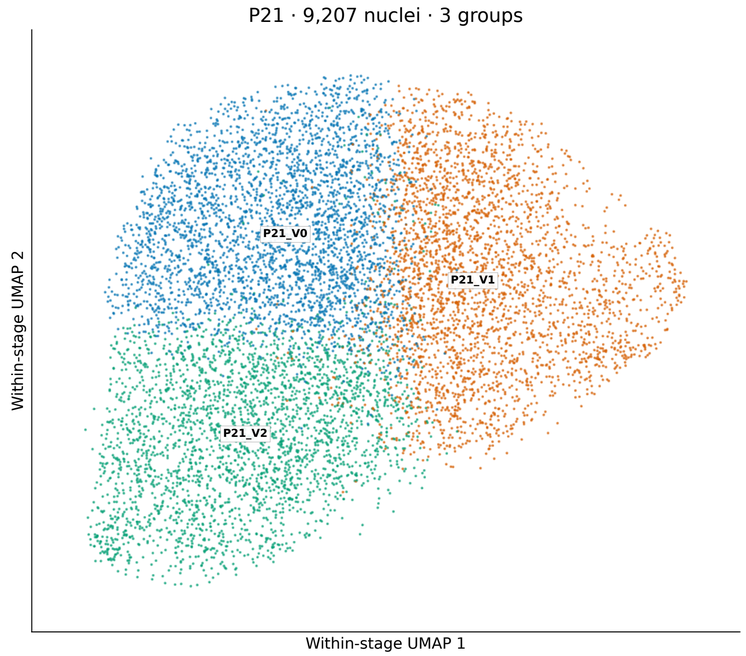

P14_V0 · n=2,763
Fgf14/Thsd4-enriched state
[candidate/review]

P14_V1 · n=867
Uncharacterized ventricular state
[candidate/review]

P14_V2 · n=3,735
Calcium/contractile program
[candidate/review]

P14_V3 · n=3,508
Srl/Actn2-enriched structural program
[replicate-supported; adjustment-sensitive]

P21_V0 · n=3,269
Marker-defined: Lrtm1/Stk39
[candidate/review]

P21_V1 · n=3,095
Calcium/contractile program
[candidate/review]

P21_V2 · n=2,843
Fgf14/Thsd4-enriched state
[supported transcriptional state]

P0, P7, P14 and P21 have independently fitted coordinate spaces; distances and orientation are not comparable across panels.
These groups are proposed transcriptional states, not established anatomical or functional cell types.
See each stage figure for matching library-colored UMAPs and per-library counts.
